

SOME ASSEMBLY REQUIRED #1

The answer to each Piece clue should be placed in the correspondingly-numbered piece, one letter per square, starting in the numbered square. Each row (A-N) in the "tray" contains two answers placed side by side; their clues are given in order, but it's up to you to determine the dividing point between answers. Use the Row answers and the pieces' shapes to determine the proper location of each piece within the tray. You won't need to overlap or rotate any pieces. Correctly placed, the 23 pieces will completely fill the tray.
